

# *What Can We Do With These Stories?*

## *A Different Perspective on Sex Working and Biblical Narratives*

What do we do when Bible stories encounter those called “prostitutes,” “whores,” or “cult prostitutes”?

- Are they meant to give us a vocabulary to judge others?
- Do they further marginalize those leaving?
- Can they offer hope?
- Can the rest of us learn something from those encountered?

We would like to experience this again through your eyes:

*We need your voice, your perspective, your story*

**Survivors seeking hope, love, healing, validation,  
freedom, and empowerment**
